

HYBRIS SYNDROME: AN ASTROLOGICAL APPROACH

Ana Andrade - Silvia Méndez

History of mankind has been characterized by constant power struggles, conflicts, disagreements, and pacification agreements, where many lives had been lost, many territories had been conquered, new nations had been born, and ethnic cleansing had been a tool that generated countless consequences on immigration issues, displaced persons, and refugees.

These social phenomena remain as an interesting subject of study and research in human and collective psychology. However, there is one of those social phenomena that the authors want to study.

The British neurologist David Owen studied 'Hubris or Hybris syndrome', a common disorder in long term periods of power. It is characterized by symptoms easily recognized, among which are an exaggerated self-confidence attitude, a refusal of the advice given by those around them, and progressive distance from reality. There is a moment in which those who govern stop listening, become reckless, and make decisions on their own without sharing information since they think that their ideas are correct. So, although their ideas finally demonstrate that there were not appropriate, they would never acknowledge their mistakes and continue thinking about their good job adding a feeling that they were called by destiny to great deeds.

This usually happens when a person enters the world of Politics, not necessarily in this unique context, but it is more visible in this arena. The individual reaches power although he can feel insecure about his ability to handle the position.

But as the syndrome progresses, it is common to appear followers -unconditional or sycophants- to congratulate the leadership style, so that the initial uncertainty of power suddenly becomes a certainty of merit for the person who have earned this position. The followers (unconditional or

sycophants) greet him, seeking contact with him and, in return, he gets thousands of compliments.

But this continues. The individual starts to receive comments such as "how good you fit with us", "what would we do without you?" Such comments feed the ego of the person reaffirming the idea of that he is "the best" and it leads to create a sense of being infallible and irreplaceable. When reaching this point, the person plans and acts to perpetuate his power, to be "hooked" in the job as if it will never be lost.

Consequently, the person plans titanic projects, much better if those takes his name, and he can even talk about issues that are not his entire domain revealing some inconsistency in his message, causing confusion to the listeners. However, for the individual what is saying or doing is totally correct for him.

This process does not end here. Those affected by Hubris or Hybris are susceptible of what is psychopathologically known as 'paranoid development', in which whoever opposes them or their ideas are considered personal enemies. And it is possible that they might suspect that the entire world is their enemy. This phenomenon, at the end, leads people who experience this syndrome, to be isolated, depressed, or even dead.

Greeks were the first to use the word 'Hubris' to define the hero that managed the glory and was 'drunk' of success, that would start to behave like a god, capable of anything. This feeling led him to make one mistake after another. As consequence of 'Hubris', appears 'Nemesis', which returns the individual to reality through a failure.

As noted earlier, this syndrome is common seen in Politics world because of, on one hand, the networks and loyalties between the members of a group to climb in the ladder of power are needed; and, on the other hand, it is known that the power is not always in the most capable hands, but for those that take the leadership think they are the perfect ones and start behaving with narcissistic traits. These two factors make susceptible the syndrome to be easily generated.

The definition of Hybris is:

"The hubris or hybris is a Greek concept that can be translated as 'excess' and now refers to a pride or self-confidence greatly exaggerated, especially when it holds power. In ancient Greece referred to a reckless disregard to the personal space of others coupled with the lack of control over one's impulses, being a violent feeling inspired by the exaggerated passions, both considered diseases because of an irrational and unbalanced character, specifically by Ate (anger or pride). As the famous old proverb says, erroneously attributed to Euripides: "He, whom the gods wish to destroy, they first drive you crazy."

The person that commits hubris is responsible for desiring more than the part assigned to him in the division of destination. The excess designates the fact of wanting more what fate assigns him. The punishment for hubris is the Nemesis, which is the punishment of the gods that has the effect of returning the individual to reality when limits were crossed.

In consequence, the concept of hubris is a breach of restraint, of moderation and sobriety; it is the effect when not measuring all things, or even better 'never too much' or 'it is not long enough'. So, those who were affected by hubris ended up being punished by the gods.

By defining Hybris, it is necessary to study Ate in Greek mythology (or Atheist: Ancient Greek "ruin", "folly", "deception"); she was the goddess of fate, personified thoughtless actions and their consequences. This refers to the mistakes made by both mortals and gods, usually due to excessive pride or hubris that brought them to destruction or death.

In the Iliad, Homer relates that Atea or Ate, is the eldest daughter of Zeus but her mother is not mentioned at all. Instigated by Hera, Atea used her influence with Zeus for him to swear that the day a mortal descendant of him was born; he would be a great leader. Hera immediately delayed the birth of Heracles and instead she provoked the birth of Eurystheus prematurely, with the intention to be the first in getting power. Angered, Zeus expelled Atea or Ate to the Earth forever, forbidding her to return to heaven or Olympus.

Atea or Ate then wandered through the world, stepping on the heads of men rather than walking on the soil, causing chaos among mortals. In that sense, Ate or Atea is symbolized as pride and anger as a "bad advisors", whose consequence is being banished from Olympus.

And finally, Nemesis, mentioned in previous lines. In Greek mythology, Nemesis is the goddess of retributive justice, solidarity, revenge, and fortune. She punished those under her command who did not follow her and, especially, those children disobedient to their parents. It is a sort of justice applied to those who are out of bound, a justice that restrains and punishes Hybris.

Astrologically speaking, the asteroids corresponding with these three concepts or goddesses are:

(430) Hybris, asteroid discovered on December 18th, 1897 by A. Charlois, in Nice, France: as we read above, Hybris on a concept of excess. Wherever Hybris is placed in the chart, there are options for excess and overflow. Naturally, this asteroid is interpreted by sign and house as well as the aspects with planets.

(111) Ate, asteroid discovered on August 14th, 1870 by CHF Peters at Clinton, USA. As it is explained in the mythological, where Ate is placed in the chart, it is possible to be bad advisers or being misguided whose consequences of "exile" are possible. In addition, it could be interpreted as the easiness for advice of followers or sycophants to feed the narcissism of those who experience Hybris; another interpretation is the advice provided to perpetuate the plans or ideas once invaded by Hybris. As always, this asteroid is analyzed by sign and house, and its aspects with planets.

(128) Nemesis, asteroid discovered on November 25th, 1872 by Watson, J. C., in Ann Arbor, USA: As stated in the mythology, she brings revenge and order. Wherever the asteroid Nemesis is placed in the chart, it may indicate the possibility of justice in terms of the characteristics of the sign and the house where it is located. This justice is to repair the order altered and to remind the lesson that all humans are simple mortals.

The authors considered adding Lilith (Mean Lilith) to this analysis, as a signifier of resolution or enforcement of what is repressed through expression of feelings of rejection, anger manifested from within or coming from the outside; it does not always manifest in the best terms and it can take different shapes.

The reason to incorporate Lilith is to tune her meaning with the topic of this article, with some similarities in the core of the interpretation, especially in the case of historical figures who have had to deal with issues of power that could have served as a "ground line" of feelings and resentments from childhood and adulthood, family psychological underlying rules and traumas, which arise during the period of government. In sum, all these factors help to highlight a more sensitive Lilith when interconnected with the asteroids mentioned.

In this opportunity, the article presents seven people in history whose passage through life and actions have changed destiny of their countries and have left their mark in the annals of mankind.

Seven biographies will be analyzed:

- John F. Kennedy - President of the United States (1961-1963)
- Richard Nixon - President of the United States (1969-1974)
- Adolf Hitler - "Der Führer"
- Benito Mussolini - "Il Duce"
- Nicolas Ceausescu – President of Romania
- Slobodan Milosevic - President of the Federal Republic of Yugoslavia
- Rafael Trujillo - President of the Dominican Republic (aka "The Goat" - "El Chivo" in Spanish)

For any biography, the authors have chosen three events to reflect Hybris syndrome.

The first event is about the beginning of the race or power that makes the individual famous, it could be a presidential inauguration date; a date in which the political party later became the leader of power; or a date in which there was a self-proclamation as leader. The second event has to do with the peak time, which is not necessarily a positive event for the population: it may be a point of exaggeration, or a moment in which the use of unlimited power where a natural feeling of invulnerability can be seen. These moments are crucial when Hybris is ready to leave room to Nemesis. The third event is related to the downfall or declination moment of the leader, the end of his government, either physical or political death.

With these sequences of events, the performance of Hybris can be noted as a power, when not well worked, it exacerbates the need to take over everything. For the leader seduced by Hybris, Ate - considered as a wrong counselor or unhealthy advice - can take two ways: on one hand, Ate can reaffirm the vision of the leader or, on the other hand, the leader simply does not want to hear anyone's advice, so the same person is self-advised ("self-Ate", so to speak); and finally, Nemesis, goddess of revenge and order, comes to destroy everything that prevents from equitable justice.

Similarly, these three mythological concepts will be incorporated through the asteroids and will be seen how they perform in three different events, acting more evidently in some moments than in others. The authors anticipate that it is surprising how asteroids interact, without neglecting to Lilith and the transit of the planets that make a general context.

In sum, the seven individuals to study are:

	Character	Start	Apogee	Downfall
1	<i>John F. Kennedy President of United States</i>	Presidential Inauguration	Bay of Pigs Invasion	Assassination
2	<i>Richard Nixon President of United States</i>	Presidential Inauguration	Watergate Scandal	Resignation
3	<i>Adolf Hitler – El Führer</i>	Leader of the Nazi Party	Invasion of Poland	Suicide

4	<i>Benito Mussolini – Il Duce President of Italy</i>	Creation of the Fasci Italiani de Combattimento	Il Duce - Foundation of the New Government Movement; the Italian Socialist Republic	Execution
5	<i>Slobodan Milosevic President of Ex – Yugoslavia and Serbia</i>	Presidential Inauguration of the Socialist Republic of Serbia	President of Yugoslavia	Imprisonment
6	<i>Nicolae Ceaucescu - President of Romania</i>	General Secretariat of the Romanian Communist Party	Presidential Inauguration of Romania	Assassination
7	<i>Rafael Trujillo – “El Chivo” President of Dominican Republic</i>	First Presidential Inauguration	Million Parade	Assassination

Hereafter, the analysis starts. The sequence is the birth chart of the leaders, and then the birth chart in a bi-wheel presentation with transits of the dates of the events. And in the box of comments, it is written the most important observations including progressions for the date of the respective events listed in the table abovementioned. It is amazing how the additional information in the box remarks very well the aspects of the event in combination with transits and natal chart.

John F. Kennedy birth chart:

When doing a traditional analysis of this chart, it is noted that behind the friendliness, flexible and personal charm of his personality, Kennedy also carried out the legacy of his family in a sort of messianic way. An 8th House overcrowded, coping transformative critical situations, is naturally associated with power factors both financially and commercially.

But when looking the symbolism of the asteroids analyzed, Hybris conjoins Pluto in the 9th House, and marks situations of excess related to Law, Politics or Religion, as well as the relationship with other countries by issues of power, mafia, etc. Nemesis trines from Pisces in 5th House (hidden emotional relationships and / or women in the art world). Both, Nemesis and Hybris are in contact to two separate sextiles natal Ate in 7th House (the counselor and partner). An angry Lilith opposes Uranus and both make a Focal Point in conjunction Mercury / Jupiter.

It seems a sort of rancor seen by family situations "inherited", attached to the concept of "democracy" (Uranus in 4th House) that could be projected in social or professional activities as a "King" (Lilith in Leo); this ends straining situations events linked to 8th House (and not just only the "death", but also hidden issues related to Finance, Trade, Religion, or Law: Mercury / Jupiter).

Observe the square aspect between the Moon (ruler of his Midheaven) and Venus (ruler of his Ascendant): beyond the connotations related to his personality, his psychology, how to integrate their emotional and affective world, it will be seen how this symbolism is associated with the management of their professional / social (Moon) and his mask or presence to the world (Venus) and how those factors will be substantially activated by the actions of these asteroids.

It is encouraged to observe the interaction of asteroids and planets in the events in the life of John F. Kennedy:

Beyond those progressed aspects or "traditional" transits that help to verify the event, it can be seen -among other minor issues- how Progressed Nemesis activates both his Natal Moon and Venus; Progressed Hybris just entered few years ago on the "royal" sign (possibly, progressed Hybris has entered in the sign of Leo when he was a senator); Transit Lilith (with executive action) transiting over the Neptune / Saturn conjunction, in the social and professional area, and Transit Hybris trines Natal Sun and squares to Natal Pluto.

In addition, when analyzing progressions, there is a lot of interaction between progressed Ate, Moon and Ascendant. It could be interpreted as a Presidential Inauguration with difficulties, perhaps the type of the advice received and its own personality and personal requirements might have mismatched.

In January 1961, Kennedy's presidential term started and he inherited the plans to invade Cuba from the previous administration.

In April of that year, USA landed in that country after an aircraft attack aircraft made over military settlements on the island. A group of 1500 men in which most of them were Latinos and Cubans trained in Nicaragua by the CIA for the invasion of that country. This invasion was resisted. The soldiers and prisoners were returned by Fidel Castro in an operation called "jams by mercenaries," as they were exchanged for food and medicine.

Onwards, such actions were taken by the government of Kennedy, to undermine the socialist-communist presence off-shore the coast of the United States. Likewise, USSR supported Castro by installing Soviet missiles installed off the coast of Florida.

The tension increased since October 24th as the Soviet missile attack was a response to the attempts of USA to invade the country of Cuba. The world was on the edge of a nuclear war, and finally USSR declined its attitude as long as USA made an explicit resignation of the invasion of Cuba.

When noticing the aspects formed on October 27th (the date is reached the peak of tension between the USA and USSR, historically known as "Black Saturday") it can be confirmed the symbolism formed by the T-Square between Transit Lilith in 12th House (plots, threats of the enemy) as Focal Point Transit Nemesis visiting the 3rd House (neighbor country, Cuba) opposed to both Natal Hybris and Pluto placed in 9th House (excess / nuke / external relations). Transit Hybris also forms a sextile to Transit Lilith and squares Natal Nemesis. Another configuration is shaped as a wedge composed of Transit Nemesis opposition Natal Hybris sextile Natal Nemesis. This configuration combines with the enforceability and fury of Lilith when tempting divine justice when taking disproportionate shares.

Another factor is Transit Ate is the Natal Uranus (nationalism and freedom) giving advice or consulting on these national issues and tightening by a square to Natal Jupiter. Progressed Hybris

practically installed on Natal Neptune helped to promote excess and arrogance of American power with a touch of Neptunian waters.

The life of USA President ended on November 22nd, 1963. His progressed Sun reached the Midheaven.

On one hand, the conjunction Mars/Venus transits 3rd House (repeating natal aspect and Natal Venus in opposition to this conjunction) indicates a violent event in a short travel; while on the other hand, Transit Hybris makes opposition to Natal midpoint Saturn/Neptune. Transit Lilith in opposition to Natal Jupiter in 8th House also squares to Natal Uranus in the 4th House. These two houses have to do with the end of the life.

Natal Nemesis is activated - through opposition to Progressed Midheaven. Since Natal Nemesis is placed in 5th House (when taking 5th House as derivative one, it would refer the "death of the president" or "death of the ruler") as **well as further progression closes T-square formed by Progressed Nemesis opposition to Natal Moon square Venus.**

It seems this moment killed the aspirations of his Kennedy's father, carrying his son to death in the exercise of his family legacy of ideas.

The progression of the Sun to Midheaven could even add a few minutes the time of birth, given the fact that symbolism of the Natal Sun in 8th House, points his death.

Richard Nixon birth chart:

When analyzing the birth chart, it can be said that Nixon was a person naturally willing to serve (Virgo) in a managerial and ambitious way (Mercury/Jupiter in Capricorn) linked to the demands of his family and/or the population (4th House). The placement of Pluto in 10th House led him to deal with the power in the exercise of his social and/or professional situation, in a competitive way, and maybe, applying cruelty if necessary, especially in field of mind and communication.

The trine Sun/Saturn in earth element can be released these tensions by providing control or responsibility.

An Aquarian Moon tuned with the American Moon symbolizes the externalization of national Egreore. This "loose Moon" in 6th House, the house of service and work, can lead to talk about a helpful attitude, yet free and independent, with its own methods and routines.

When analyzing the chart through the symbolism of the selected asteroids, it can be found some other issues that allow getting deeper in the interpretation, at the light of world events known about Watergate and subsequent resignation President of the United States.

Notice that the asteroid Hybris located in 1st House. It remarks its innate disposition to generate excessive and ambitious actions. It makes a trine to Sun and to Saturn creating a Grand Trine.

On one hand, Hybris is also opposed to Ate, in which the latter from the 7th House is willing to advice. Ate is also doing a sextile to Sun in Capricorn, combination that not always brings success. It can be read that his pointing advisers "partners" along with Nixon, formed a spy network by recordings conversations in the headquarters of the opposition party, the Democratic Party, a fact that was discovered and subsequently led him to resign (he was the only American President to have resigned in the history of that country).

On the other hand, this opposition Hybris/Ate forms a Cosmic Square with the opposition Mars/Pluto. As the famous character Hannibal Lecter would say: *"dinner is served"*.

Moreover, the Aquarian Moon - also linked from natal chart with the opposition Hybris/Ate - is reinforced by the presence of Nemesis and Lilith: the symbolism of fate with executive ability and ferocity of Lilith set in motion is activated in the house of work and subordinates (crucial actors of the Watergate event, as it is remembered).

It will be analyzed how these asteroids operated in the following events:

- Resignation

- Progressed Ascendant 3° Scorpio square Natal Uranus, trine Natal Venus.
- Progressed Lilith 0° 43' Pisces, sextile Natal Mercury.
- Progressed Nemesis 17° 26' conjunction Prog Sun; opposition Progressed Hybris.

When analyzing the typical progressions, it can be noticed that the progressed Sun in 16 ° Pisces squares the axis of 4th and 10th Houses, and ready to make a conjunction to the Descendant. With regard to the asteroid progressions, it is interesting because the progressed Sun is trapped in the "conversation" with Progressed Hybris and Progressed Nemesis, activating the four axis of the natal chart.

As for traditional transits, it can be seen that the square aspect of Transit Pluto working on Natal Mars/Pluto opposition in the birth chart and that leaves behind Transit Pluto with Natal Saturn; but from the perspective of the asteroids in the Midheaven, Transit Lilith and Transit Nemesis over Natal Pluto, strongly points an event linked to the magnitude of power; as Lilith fiercely runs active and Nemesis, very close, remind him not to take the fate that is destined to others.

Transit Ate transit forms a Grand Trine of Air with Natal Moon/Nemesis and Transit Lilith/Nemesis over Midheaven.

The scandal began with the arrest of five men for the raid on the headquarters of the Democratic National Committee in the Watergate office complex in Washington, DC on June 17th, 1972.

Nixon and his staff conspired to hide the raid, only six days after the fact.

After two years gathering evidence against President, which included team members testifying against him in an investigation led by the Senate of the United States, it was revealed that Nixon had a magnetic tape recording system in his offices and had recorded a myriad of conversations from the White House. These tapes proved Nixon had obstructed justice and had attempted to cover up the theft; these recorded conversations would be known as "The Smoking Gun".

After a series of legal battles, the Supreme Court of the United States unanimously decided that Nixon must turn over the tapes. He finally agreed.

With the certainty of an accusation by the House of Representatives and a conviction in the Senate, Nixon resigned ten days later. Then, he became the only American president who has left his position by resignation.

His successor, Gerald Ford, signed a document in which Nixon would be granted with a controversial pardon for any federal crime he had committed during Nixon's tenure.

The symbolism clearly associated clearly shows Hybris and Ate (counselors, wrong actions, instigators). Transit Hybris is moving through 4th House to the conjunction Mars/Mercury/Jupiter. Mercury rules his Ascendant, Jupiter rules the Descendant, Mars is the ruler of the 3rd and 8th Houses.

As it is known, there were two famous Washington Post reporters who led the research, Carl Bernstein and Bob Woodward, who investigated to unravel a complex web whose threads pointed to the White House through the Committee to Re-Elect the President (CRP) of Richard Nixon. The journalists received anonymous help from an informant who self-called Deep Throat, whose identity was not disclosed until thirty-three years after the scandal. This source told Woodward

that the wiretapping against the Democratic Party was an activity planned by Nixon's top aides, H. R. Haldeman and John Ehrlichman, with the approval of the President.

Mercury/Jupiter associated with media and journalists! The 3rd House related to communication, writings, recordings and 8th House, the upcoming crisis.

It can be noticed that Transit Hybris is forming a Focal Point of a T-Square of Hybris/Ate opposition in natal chart, and Transit Hybris makes a sextile to the conjunction Moon/Nemesis in 6th House (employees, subordinates).

The chart also can be seen the Progressed conjunction Sun/Nemesis on Natal Ate; Progressed Ate conjunction cusp of Natal 8th House, and Progressed Hybris retrograde aspecting by trine to the Natal 8th House, as well. These factors let emerge the crisis associated with this scandal, which occurred by the association between Nixon and some of his advisors / subordinates.

- Progressed Nemesis 19° 58' Pisces, conjunction Natal Ate.

In this chart, corresponding the day of the resignation of President Nixon, it can be seen how Nemesis aspects Transit Saturn. Transit Nemesis became the Focal Point of the T-Square with the opposition Mars/Pluto (and Transit Hybris).

It also continues the conjunction between Progressed Sun and Natal Ate, in the authors' opinion, one of the most important aspects for the interpretation of this period in American life and its President, given its global resonance to the point that led Nixon to be the only president in the history of this country who had to resign, becoming this event as a "political death".

Adolf Hitler birth chart:

This chart draws attention. First, the location of the asteroid Hybris in 4 ° Virgo makes a trine to Natal Moon, Nemesis and Jupiter in 3rd House, and closes a Grand Trine with Sun located in 7th House.

These points show a natural disposition to deploy a lush and critical power, expressed through extensive and plentiful communication. Hybris is in an animated conversation with the Sun (ruler of his Midheaven) which brings to mind the natural association with power, hubris and arrogance, in spite of the Sun placed in 7th House, where the mission would have been agreement or harmonic relationships with others.

It happens also that Nemesis is joining Moon / Jupiter in 3rd House (in detriment and in fall, respectively) closing a Grand Trine with the Luminaries, with Jupiter and Hybris. Also makes a quincunx to Pluto linking the 8th House to this interaction.

Several books discuss the strong maternal influence of his mother and an authoritarian father figure on the psyche of Hitler. It can be seen that Cancer is intercepted in 9th House, the Moon manifested through the mind, the communication of the concepts of "justice" combined with his excessive ambition of power. The 9th House symbolizes religious, ethical and political individual concepts, and notice that the Moon, as ruler of the intercepted sign of Cancer, expressed Hitler's ideas of racial or religious persecution.

Ate placed in the 9th House squares the Asc/Desc axis and Natal Mercury, in which ratifies the wrong advice by exalting nationalism with fiery speeches.

On one hand, Pluto (partial ruler of 1st House) is present in the 8th House in conjunction with Neptune; it may induce to suggest that Hitler might have felt inclined to esoteric and the occultism. On the other hand, Lilith in 8th House is deploying all its fury and vengeance towards anything different. It makes a trine to Uranus.

It will be analyzed three important events in his life:

- Leader of the Nazi Party
- Invasion of Poland
- Suicide

When analyzing planets and asteroids in progressed chart related to Hitler's leadership of Nazi party, it can be seen that the Ascendant in 19 ° Scorpio activates the Natal trine between Lilith and Uranus.

His Progressed Midheaven conjoins Progressed Hybris (retrograde) symbolizing how fate led Hitler be in touch with the excess.

Furthermore, his Progressed Jupiter retrograde forms a trine with this combination, pointing to a relevant and important event in his life.

With regard to transits, it is observed the most prominent that of Hybris over Natal Neptune, exacerbating the lack of limits in the House of power and death; also the conjunction Moon / Ate over the Natal conjunction Venus / Mars placed in the House of declared or known enemies. In addition, Nemesis in that day was retrograde; it may have passed by the degree of Natal Nemesis some time before the event.

On one hand, it can be seen the Grand Trine of Earth formed by both Transit Ate and Hybris, activating the Natal conjunction Venus/Mars, and a wedge with the Natal Nodal Axis. Lilith in 28° Aquarius makes a quincunx to Natal Ate. On the other hand, Transit Saturn conjoins Natal Sun and Transit North Node is in opposition to the Natal Sun. In addition, Transit North Node conjoins Progressed Moon.

Besides, Transit Jupiter in 7° Aries squares the conjunction Nemesis, Moon and Jupiter, all present in the sign of Capricorn and in the 3rd House (neighbor or nearby countries).

Transit Venus previously contacted Natal Hybris, being Venus ruler of the 8th House and the 12th House.

It is interesting to notice that with the invasion of Poland, the Second World War began; Hitler, with this act, violated the Treaty of Peace signed at Versailles of 1919, which established the conditions for peace after the First World War.

When analyzing the progressed planets, it can be seen the event of suicide: Progressed Moon square Natal Ascendant and Natal Mercury, and Mars trine Natal Ascendant.

Now, when looking the symbolism under analysis, the first thing to notice is that Progressed Lilith is conjoining Progressed Mars in tight orb, both trine the Natal Ascendant.

When analyzing transits, the configuration formed by the stellium of Mercury, Venus, Nemesis and Hybris in the sky in opposition to Transit Lilith, and works on the Natal trine Uranus / Lilith, is very impacting.

In addition, Neptune transit (suicide) squares Natal Nemesis, and Transit Saturn (ruler of 4th House) is over Natal Chiron and in opposition to both Natal Nemesis and Moon.

Benito Mussolini natal's chart:

The traditional analysis points out that this Italian character has his Sun in Leo conjunct Mercury , ruler of his Midheaven placed in 9th House, marking an orientation to foreign affairs and / or linked to Politics, with a conjunction Neptune / Pluto in 7th House. This aspect remarks a person who would interact with the major transformations and changes in the ideological and cultural context -because of its angularity- giving birth of a new historical epoch in the place where the person was born (Pluto rules his Ascendant).

The Moon is embraced by Mars and Saturn (which gives the symbolism of the "black shirts") in angular house. It may lead to think of a man who was born to cause structural changes in the society in his native country (Uranus in 10th House).

In this traditional symbolism, it draws the attention to Hybris in 1° Cancer 22' in 8th House; the asteroid of excess and arrogance placed in the House of death, the management of third-party resources in aspect of semisextile with modern ruler of his Ascendant; as it is known, Cancer is the sign of nationalism. And, precisely, Fascism is just an ideological trend born to face the Socialists and Communists.

Ate in 5th House forms a sextile to Mars (the other ruler of his Ascendant) and a square to Jupiter - who in turn is in sextile with the conjunction Nemesis / Uranus in 10th House. Notice that Jupiter is co-ruler of his Ascendant as part of the 1st House since it is in Sagittarius; this combination could be signaling the difficulties he experienced that led to a so complicated life.

Finally, it is important to notice Nemesis conjunct Uranus in 10th House (Uranus ruler of his 3rd House with Aquarius intercepted) was trying to communicate his revolutionary ideas to the people, taking the fate that the gods had prepared for him.

The three events to study are:

- Creation of the Fasci Italliani di Combattimento
- Il Duce; Foundation of the "New Government Movement" in the Italian Socialist Republic
- Execution

- Progressed Ascendant 18° Sagittarius, quincunx Natal Jupiter
- Progressed MC 13° Libra trine Natal Mars

Observe how the Transit conjunction Venus / Saturn is present in the Midheaven, forming a T-squares' Focal Point with ***the opposition Transit Hybris on Natal Saturn***. The aesthetics of the "black shirts" is here. The Hybris' seduction is activating with her symbolism.

Transit Nemesis is in conjunction with Natal Nemesis / Uranus, and it is producing a trine to Natal Neptune and in sextile to the Ascendant. These factors contribute to the whole creation of armed groups.

Both Transit Jupiter/Neptune are in trine to Natal Ate and sextile to Natal Mars. Finally, Progressed Ascendant and Progressed Midheaven are aspecting both Natal Jupiter and Mars, respectively.

It is emphasized the symbolism of the asteroid Ate in the 5th House, since Mussolini armed squads of young (5th House) dressed in "black shirts", whose main traits were aggressive and violent.

The authors share the speech by Mussolini given on November 16th, 1922: Mussolini took place in the House (he won the confidence vote with 316 in favor, 116 against and 7 abstentions) and gave his first speech as President of the Council of Ministers (called "Discorso del bivacco"), the speech was taken from Wikipedia. He stated:

"I have rejected the possibility of completely overcome, and I could. I put limits to me (Moon/Saturn). I said to me, that the best wisdom is the one that is not abandoned after the victory (Ate /Aries). With 300,000 fully armed youngsters (Ate in Aries in 5th House) determined to everything and almost mystically (Neptune angle) ready to execute any order I give them, could be punished (Nemesis) to all who have defamed and tried to put mud on Fascism. I could make this dull and gray classroom a camp of soldiers: I could destroy with irons (Mars / Gemini) this Parliament and form a government exclusively of Fascists. I could: but I have not wanted to, at least at this early stage. "

Actually, the new Republic was a puppet government of the Third Reich, and the real power of Mussolini was tight against the German military authorities.

It is noticed that Hybris transit activates his Natal Sun (9th House: "Alien King") and opposes Natal Saturn, and Transit Nemesis forms a Yod by two quincunxes to both Natal Ate and Mars.

Transit Ate squares Natal Mars, the ruler of the Ascendant while Transit Lilith trines Natal Ate.

Transit Neptune 1° Libra makes a square to natal Hybris and amplifies the "unreality" where Mussolini was sunk, while Transit Moon in conjunction Natal Jupiter and Transit Pluto is over his Natal Sun pointing out that the real power was abroad.

The execution of Mussolini was done by the hands of Communist partisans near the Lago di Commo. As it can be seen, all the stellium of transit planets (Mercury, Nemesis, Venus, and Hybris) quincunx both Natal Nemesis/ Uranus in 10th House, which, in turn, the latter two planets are transited by Jupiter, who is ruler of 4th House!

It can be interpreted that the symbolism of death, given by Mercury as ruler of 8th House, refers to declared enemies (Venus as ruler of 7th House), justice (Nemesis) to the excess (Hybris) by adjusting the way of exercising power (Uranus / Nemesis at Natal 10th House).

Slobodan Milosevic birth chart:

Milosevic's natal chart shows the Sun, Hybris and Mercury in Leo, all of them in conjunction in the 5th House while Nemesis conjoins the IC, in Cancer. Ate retrograde is in Aquarius and placed in 11th House making a trine with Jupiter, ruler of his 8th House. This combination leads to infer that the advices he received from his groups were to feed his belief system of power and death, while Moon and Pluto in 4th House, both in Leo, show the need of power in a leadership sign revealing his interests in a nationalism sentiment.

In addition, Venus and Neptune in Virgo are tuned with the values of perfectionism and discrimination in the sense of what is useful and what is useless, in a very open manifestation. Lilith and Nemesis are in sextile, from 1st House to 3rd House, respectively, which means that his world of ideas have had a masquerade of "distributive justice" but in the end, there was rage and a profound need of power in his terms that colored his particular definition of justice.

In the Karadordevo Agreement, there was a distribution of Bosnia among serbians and croatians, and there were ammendments of the Constitution to provide more power to the President.

Lilith in Taurus in 1st House and Mars in Aries intercepted in 12th House making a trine to Hybris, seem to symbolize in the nickname of "Butcher of the Balkans" named by the media due to his controversial attacks against the civil population when Milosevic was President of Serbia.

- Prog Nemesis 5° Leo conjunction Prog Pluto
- Transit Sun conjunction Natal Lilith
- Both Transit Ate and Hybris are in tight conjunction

In this chart, it is visible that the transit Sun conjoins Natal Lilith. It is also noticeable that both Transit Ate and Hybris are in exact conjunction, while Transit Venus is on its way to meet Natal Saturn. Transits of Saturn, Uranus, and Neptune in Capricorn, all of them retrograde, in some moment they would have made an opposition to Natal Nemesis. The same will happen with Transit Pluto that is getting closer to an exact trine to Natal Nemesis; conversely, Transit Nemesis is making an opposition to Natal Uranus, the ruler of 11th House, the plans and projects.

With respect to progressions, Nemesis and Pluto are in conjunction.

All this symbolism in the event chart indicates that the upcoming times of those days would have had inherent elements of conflict, a spirit of imposition of a belief system trespassing boundaries (Ate in Aquarius) that impacted in the citizenship.

- Transit Ate conjunction Natal Nemesis
- Transit Nemesis activates both natal Lilith and Nemesis

Both Transit Moon and Hybris are in conjunction. The Moon is the dispositor of Nemesis and ruler of his 4th House while Uranus squares the Asc/Desc axis.

This symbolism practically is announcing a moment of wide possibilities that this individual might be involved by the charm of Hybris.

Transit Saturn is close to Natal Mars; besides, Natal Mars participates in a Grand Trine of Air with both Natal Jupiter and Ate which facilitates the spread of his ideas.

Ate transit over his Natal Nemesis may indicate the advice received as part of his leadership strategy.

Mercury, ruler of 2nd House – his values - is in contact with his Natal Hybris, which generated an opportunity to insert in his speech and facilitated Hybris to possess his mindset, as he did in his speeches, full of nationalism words becoming one of the main traits of his performance as President.

In these particular days, a Saturn Return was being held, besides that the fact that both Saturns were the Focal Point of a T-Square composed of Transit Lilith opposition Natal Sun. Saturn is the ruler of his Midheaven.

Transit Ate conjoins Natal Lilith and transit Hybris opposes to Transit Nemesis. Simultaneously, Transit Mars trines Natal Hybris: that day would not have been easy for Milosevic since the International Court of Justice of the former Yugoslavia solicited his detention.

This day Milosevic accepted to be in prison in Belgrade, then he was sent to La Hague. In this city, the legal process was initiated and he was indicted for war crimes and crimes against humanity committed in Kosovo. In 2006, Milosevic was found dead in his prison.

Nicolae Ceaucescu birth chart:

On one hand, this birth chart shows a Sun in Aquarius conjoining Venus and Uranus. All of them the most elevated planets in 10th House. On the other hand, Moon is in Scorpio and Ascendant in Gemini.

This combination symbolizes a person with strong determination to bright professionally and/or socially speaking. Skilfull to reach the mass by using possesivenss, control and emotional fusion, as he did in his governmental period reaching a point in which the private lives of citizens were regulated.

From an asteroidal point of view, it is observed a Grand Trine of Air among Ate, Hybris and Sun/MC which facilitates the excess.

Ate in Gemini in 1st House invites to think of a person with a marked tendency to be auto-referential for his own advice, being immature in his own ideas, or recieving advice by people but at the end being taken superficially.

Nemesis in Aries in 11th House indicates that the distributive justice would come from anger and in a instant reply (for being in Aries) to the groups. In other words, when the justice comes, it would be immediately manifested.

Moon opposition Jupiter show that the belief system has strong emotional content and it can go against the population, specially with the daily life (6th House, routines, habits). Being Jupiter the ruler of the Descendant and placed in 12th House, there is a notorious link with his couple.

Pluto in 2nd House refers, among other meanings, to values and materialization of power.

It is also observed Natal Mars opposition Natal Nemesis, shows the possibility of a situation of justice conceived from a violent fashion against him and his couple (Libra in the 5th House).

Regarding Hybris in Libra and in 5th House, it can be expressed in the excess of the intervention of control reaching personal topics such as the minimum number of four children (5th House) via regulation (Libra). During his period of government, Ceaucescu established the prohibition of abortion declaring *"The fetus is property of all the society. Anyone who avoids having children is a deserter that resigns to the law of national continuity."*

The exceptions to this rule were applied to those women that had more than four children and those women with certain position inside the Romanian Communism Party. The government exerted strict control that worker women called them “menstrual policy”, given that they spontaneously appeared in the work center to distribute pregnancy test. If a woman did not get pregnant during a given time, she should pay a “celibacy tax”.

When analyzing the event chart, it can be observed a Lunar Return where Transit Ate squares the Natal Sun while Transit Hybris makes contact with Natal Ate.

Transit Nemesis is in opposition to both Natal Venus and Uranus. And it calls the attention that the conjunction among transits of Uranus, Mars and Pluto in opposition to Transit Saturn. There is also a trine between Lilith transit y Natal Lilith.

As it can be seen, the inauguration day of the General Secretarial held a “Nemesian” sentiment of the leader, in potential terms, ready to overpass the boundaries of his government period reaching temerity extremes in his performance (Hybris) in relation to the population.

Transit Ate square Natal Sun is highlighting that the advice was not tuned with the leader mindset and values, and letting flow the feeling of rudeness in his ideas.

In addition, Progressed Mars conjoining Natal Lilith, as his Progressed Sun conjoining Natal Nemesis, suggest the reaffirmation that the impulse, energy and desire channel what was repressed, whatever the cause was, and create an explicit expression of power and authority in his leading role.

In the chart of Presidential Inauguration of the Romanian Presidency, it is seen that the Transit Sun is over Natal Nemesis, while Transit Nemesis is placed in the midpoint between both Natal Neptune and Saturn. A T-Square is formed by Transit Sun transit over Natal Nemesis opposition Transit Pluto over Natal Mars and all of these energies go to the Focal Point of Natal Pluto.

Transit Mars passes over Natal Ate while Neptune transit over the Moon. These latter planets form a T-Square with Mercury transit.

Transit Lilith over Mercury, ruler of his Ascendant, and dispositor of Ate, his Progressed Sun in Aries is opposed to his Natal Hybris, clarify his power needs and with excess.

Very close is Transit Venus over both Natal Uranus and Venus, which means that the value of the irruption and the need of democratization, in a sense of making commonalities in values, those would be the main traits of his government. The history would confirm what was being formed in that day of the Presidential Inauguration.

- Prog Moon 29° Cancer trine Natal Moon and Transit Moon
- Prog Ate (3°05' Cancer) conjunction Prog Pluto and Natal Pluto
- Transit Nemesis trine Prog Nemesis
- Transit Saturn trine Prog Mars retrograde
- Prog Asc/Desc (11°10'Leo/11° 10' Aqu) aligned Natal MC/IC
- Prog Lilith 28° Virgo and Prog Hybris retrograde in 0° Libra "the death along with the couple"

Ceausescu, in previous days before his death, had an incident in Timisoara, on December 17th, 1989, in which he authorized the Army to shoot against the civil population reunited in this city. After this event, the rebellion extended and reached Bucarest.

On December 22nd, the Army agreed with the population and Ceausescu and his wife had to flee in helicopter to Targoviste. Then the couple was arrested and both were condemned to death accused of genocide. The execution was seen by Romanian television to calm down the population.

In the event chart, it is observed Transit Mars (shooting) makes a Grand Trine of Fire with Natal Nemesis (justice) and Natal Neptune (ruler of 11th House, symbolizing the mass with pain). On the other hand, Transit Hybris and Natal Hybris generate a midpoint that conjoins with the Natal Sun of Ceausescu.

It is impressive that Prog Hybris in this day, is in 0° de Libra, grade that represents the partner. And Prog Lilith in 28° Virgo, very close to 0° Libra, as well. As it is known, Ceausescu and his wife died together.

On one hand, Transit Mars takes part of a Grand Trine of Fire with both Natal Nemesis and Neptune. Besides, there are Lunar Return, Mercurial Return and Hybris Return. On the other hand, Transit Ate makes a trine Natal Venus/Uranus. And Transit Lilith makes a quincunx to Natal Nemesis, Transit Sun conjoins the Natal cusp of the 8th House and Transit Nemesis makes a quincunx to Natal Asc.

In sum, there was a web in the sky of planets and asteroids in the birth chart whose result is the end of life of Ceausescu and his wife.

Rafael Trujillo Birth Chart:

In the analysis, it can be seen a stellium of four planets in 12th House (Mercury, Sun, Uranus, and Venus) while Pluto and Neptune makes a tight conjunction very close to 7th House.

It can be noticed that Hybris in Capricorn and in 2nd House leads to think in a “sweetening process” with the material world, the perpetuation in the government, and the ambition.

Ate in 4th House invites to think in advice related to familiar topics, ancestors, to be eternal rooted in power as it was his life. As it is known, Trujillo had resentment with his Haitian maternal ancestors. Such resentment was expressed in the moment in which he made the decision to eliminate several Haitian natives in a zone in Dominic Republic, an event known as “Parsley Massacre”. Moreover, Trujillo also held conversations with General Franco from Spain to allow the immigration process of Spanish citizens to “whiten” the ethnicity of Dominic Republic.

Nemesis, very close to MC and squaring Asc / Desc Axis, indicates that the law and order, when ill-distributed, would have consequences in the exercise of activities.

At planets level, it is seen a very tight conjunction between Mars and Lilith and Saturn in 11th House, which means that the energy and ambition of his plans with groups may have had a free expression in this area. Of course, the major stellium of the biggest planetary intensity happens in the 12th House, whose effect invites to think that the secret enemies and their plans were hidden and Trujillo was not able to detect them.

Finally, he has the Moon in Cancer, in critical degree, making a square to Mercury, the ruler of the 8th House.

It will be analyzed:

- Prog Ate (0°54' Pisces) trine Natal Sun
- Transit Nemesis conjunction Prog Moon (19°35' Sag)
- Transit Mercury square both Transit Nemesis and Hybris

When the event chart of his first presidential term is analyzed, it can be seen that Transit Sun contacts Natal Nemesis; and Transit Mars makes a sextile to Natal Nemesis. On the other hand, Transit Hybris makes an opposition to Transit Mercury that participates a T-Square with Transit Nemesis (Mercury is ruler of the 8th House).

Transit Lilith makes opposition to Natal Nemesis. It is like the heaven provides him the responsibility to assume the distributive justice of Nemesis. But the history would be written differently. Transit Jupiter would make an opposition to Natal Hybris, therefore, Trujillo belief systems is opposed to Hybris.

It is also important to remark that this day, there was a Cosmic Square among Transit Sun, Natal Nemesis in opposition to Natal Ate, creating a square to Asc/Desc Axis. This announces the arid relationship with the other, a potential speech of distribution of justice but from a rage feeling as starting point, so to speak, in a "Lilith's way" or a disguised one coming from the Prog Ate (0° 54' Pisces) trine Natal Sun.

- Prog Sun (10°Cap) goes to the conjunction with Natal Hybris
- Prog Uranus conjoins Prog MC (both in 5° Scorpio)
- Transit Hybris opposition Prog Ate (10° Pisces) doing a focus with Natal Neptune/Pluto
- Prog Ate would be acting over Natal Jupiter, activating the square Neptune/Pluto; in addition, it shapes a trine with Natal Venus.
- Prog Sun sextile Prog Ate

On October 24th, 1960, and as celebration of Trujillo's birthday, his collaborators organized an event called "Million Parade". In this event, many hundreds of people of all social sectors were part of the show. The goal of this event was directed to reaffirmate Trujillo's popularity and to solicit his candidature for the elections in 1962.

That day he became 69 years old and he fully celebrated in the George Washington Avenue (in Santo Domingo in which at that time was called Trujillo City) with a fatuous parade, the so called "Million parade".

It was an excessive concentration of mass that – voluntarily and under pressure- asked Trujillo to become candidate for the period of the years 1962-1966. This parade convoked all the Dominican social classes.

In this chart, it is visible the performance of Transit Uranus opposition Natal Ate, in which what is advised may include some innovation or surprises, or massive presence. Transit Saturn is also making a contact with Natal Hybris, and conversely, Transit Nemesis contacts Natal Saturn, maybe announcing that this particular style to retain power would have a very soon end with an upcoming severe order.

And Transit Nemesis makes a trine to Progressed Ascendant: the justice would organize his personality. Meanwhile, Trujillo continues with his narcissist celebration (Transit Hybris trines Natal Hybris) without limits, but the action of Saturn in combination with Hybris and Nemesis makes think that the end of the government of Trujillo might happen in a short period of time.

- Transit Pluto quincunx Prog Hybris in 5° Aquarius
- Transit Neptune conjunction Natal Venus
- Prog Nemesis (0° Vir) conjunction Prog Cusp 8th House (28° Leo) and trine Prog Mercury (1° Cap)

During the day of the assassination, it can be seen Transit Saturn was making an opposition to Natal Moon, while Transit Hybris acted in sextile/trine to Natal Asc-Desc Axis and, moreover, it is observed the T-Square between Transit Mercury and Progressed Mercury in that day, Mercury is ruler of the 8th House, and everything pointing to Natal Mars and Lilith in which, at the same time, are being visited by Nemesis transit!

It is also visible that Transit Sun is crossing both Natal Neptune and Pluto (ruler of the Ascendant). Transit Uranus (ruler of the 4th House, end of life) made a contact with Natal Nemesis while Transit Saturn crossed the Prog Ascendant. It is possible to add that at a progression level, the Prog Moon conjoins Prog Hybris, while Prog Nemesis conjoins cusp of progressed 8th House, revealing the strong interaction between asteroids and planets. It can be seen that Transit Ate makes different contacts with different natal and transit planets that participate actively.

In an ambush, planned by various people of his circle, the car of Trujillo received the impact of more than 60 bullets; seven out of them provoked his death.

CONCLUSIONS

- The Hybris syndrome, understood as a psychological process, in correspondence with its astrological symbolism responds to facts in the history very well. It has been analyzed that in the selected charts how the location of planets and asteroids in the birth chart, in the progressed charts in the day of the event, as well as the transits, create hard aspects, dynamic configurations that highlight the event. In that sense, the mythological symbolism of Hybris, Ate, and Nemesis work well to illustrate the histories of power from the beginning to the end, adding the performance of certain asteroids to make this event more prominent as the events unfold. Generally in the analyzed content, it is perceived that during the beginning of the term, there are harmonic aspects, the subtle participation of one or more asteroids, but when the power term in its summit, and moreover, in the downfall, it is like all the asteroids, without leaving aside the planets, create configurations with hard aspects that crystal clear reflect events. This can be seen in the interaction of transits with natal chart, as well with progressions.
- The main traits of these leaders, with their particular personal and historical context, are:
 - a) Perpetuation of the power term and, overall, perpetuation of the ideal they are adhered.
 - b) A sense of being god and the need of materialize his presence through icons and slogans to immortalize the name of the leader, as the case of Trujillo was so evident (“Viva Trujillo”, “God in Heaven, Trujillo on Earth”, a mandatory slogan in the church); use of the Svastic Cross as Hitler did, or nicknames such “Il Duce” as Mussolini did, among others.
 - c) Abuse of money, and of the power, reaching the private life of the citizens, in some cases, as Ceacescu did, created his “celibacy tax”.
 - d) Double speech, in the name of the Good, they do the Evil.
 - e) Creation of a sort of religion, worship to the leader, and selection of followers in a universal and unanimous way, and attack to those that are not tuned with the leaders’ ideas.
 - f) In some cases, leadership has been colored by sentiments of racial discrimination.
- It is possible that leaders that experienced the Hybris Syndrome may have as origin a home with lack of economic resources and/or emotional support, but they can come from a family

with strong familiar commandments and this can be reflected in the leadership style, with singular characteristics that facilitate the Hybris Syndrome to be found in these leaders.

- In some cases, the leaders trespass some boundaries in the name of “doing the universal good”; some of them had crossed the boundaries without taking the consideration of the consequences or losing the perspective of their performance. For example, Trujillo and his personal worship (“God in Heaven and Trujillo on Earth”); Hitler and his “ethnic cleansing”; Ceaucescu and his birth regulation declaring the need to have four children as minimum; Nixon and his Watergate scandal; Kennedy and his fight against the communism leading to the world very close to a nuclear war; Mussolini with his Black Shirts; Milosevic and his fervent nationalism.

All these individuals studied have been seduced by Hybris, and in this confusion, they lost perspective, making them blind and not being able to recognize obstacles or boundaries, even less to listen to healthy advice to avoid negative consequences.

In that sense, Nemesis is in charge to recall our mortality, in special to those people who felt they are gods on earth, producing fatal consequences in the destiny of many nations.
